Civilization During the Middle Ages - From the Dark Ages to the Renaissance (Illustrated) George Burton Adams

The object of this book is to show how the foundations of our civilization were laid in the past and how its chief elements were introduced, and to depict its progressive development until it had assumed its most characteristic modern features. Its purpose is to show the movement and direction of historic forces, and the relation of the facts of history one to another. If anywhere the details have been allowed to obscure the general movement, there I have failed to realize my intention.
