Critical Care Infectious Diseases Textbook

Critical Care Infectious Diseases Textbook

Infections and their complications are a very important clinical area in the intensive care unit setting. Community-acquired infections that antimicrobial resistance is minimized by and nosocomial infections both contribute to prudently employing antibiotic agents. It is our hope that this textbook will provide clinicians among critically ill patients. The importance practicing in the intensive care unit a reference of accurately diagnosing nosocomial infections to help guide their care of infected patients. To and providing appropriate therapies, to include that end we have brought together a group of antimicrobial therapy effective against the international authors to address important topics identified agents of infection, have been shown related to infectious diseases for the critical care to be important determinants of patient practitioner. outcome. Critical care practitioners are in a unique position in dealing with infectious diseases. They are often the initial providers of care to seriously ill patients with infections. SECTION 1: GENERAL ASPECTS J. Rello 1.
