The Eighth Edition of Organizational Behavior in Education relates the study of educational leadership to the challenge of how leaders can participate effectively in school reform. Readers are challenged to develop and act upon a game plan for implementing school reform throughout the text. Issues arising from the No Child Left Behind Act of 2001 receive major emphasis in this edition. This edition continues to examine aspects of organizational behavior such as organizational culture, diversity, leadership, motivation, change, conflict, and decision-making while maintaining high standards of scholarship and a lucid, readily accessible writing style.
