Youth Online: Identity and Literacy in the Digital Age (New Literacies and Digital Epistemologies)

Angela Thomas

Youth Online chronicles the stories of young people from several countries - the US, Australia, Canada, Switzerland, and Holland - and their interactions in online communities over a seven-year period. It examines how young people construct their identities in various social contexts: social, fantasy, role-playing; and for various social purposes: leadership, learning, power, rebellion and romance. It explores the ways youth are deploying both visual and literary cues to develop a full sense of presence online and to effectively communicate with their peers. Using methods of textual, visual, and socio-psychological analysis, this book illuminates the ways in which young people are making sense of their own identities and their place within broader communities.
