A Historical Atlas of South Asia: 2nd impression, with additional material (Reference Series / The Association for Asian Studies)

Originally published in 1978, *A Historical Atlas of South Asia* was received with enormous critical acclaim, variously characterized as "a landmark" and "a *tour de force*." This invaluable resource is welcomed back in a newly updated form, no longer depriving scholars of this outstanding achievement.

The fruit of sixteen years of research, the *Atlas* consists of over 650 beautifully rendered original maps, most in color, detailing the ethnographic, political, and cultural changes on the Subcontinent from prehistoric times to the present. The maps are supplemented by several hundred additional charts, tables, chronologies, photographs, and line drawings, arrayed side-by-side with the maps on 149 large photographic plates. Following and complementing the plates are some 150 pages of text, keyed to the maps, outlining the history of the region--from politics to religion--in formidable detail. For this second impression, Schwartzberg and his collaborators have contributed twenty pages of additional text and bibliography, bringing the volume up-to-date through the regional census of 1991. A bibliography of over six thousand sources, a comprehensive index, and five end-pocket inserts are included to make this a classic resource.

A virtual encyclopedia of South Asian history, the republication of the *Atlas* offers students of Asian history, geography, religion, anthropology, archaeology, and politics access to a book that has been sorely missed and unlikely to be superseded in the foreseeable future.

This particular book was represented so why is the world has grown up. The terminology styles that writer make usage of to explain it is easy to understand. The actual writer made some investigation when he makes this book. That is why this book suitable all of you.

Robert Higby:

As a pupil exactly feel bored to be able to reading. If their teacher requested them to go to the library or make summary for some book, they are complained. Just very little students that has reading's heart and soul or real their pastime. They just do what the educator want, like asked to go to the library. They go to there

but nothing reading significantly. Any students feel that examining is not important, boring and also can't see colorful pictures on there. Yeah, it is to be complicated. Book is very important for you personally. As we know that on this time, many ways to get whatever we wish. Likewise word says, ways to reach Chinese's country. So , this A Historical Atlas of South Asia: 2nd impression, with additional material (Reference Series / The Association for Asian Studies) can make you experience more interested to read.
