How to Differentiate Instruction in Mixed-Ability Classrooms Carol Ann Tomlinson

Just as students come in different sizes and shapes and with differing cultural backgrounds, interests, and abilities, so do teachers face challenges in "fitting" instruction to the students in their classrooms. This book provides practical guidance in addressing the diverse needs of students in mixed-ability classrooms.

Differentiated instruction provides multiple approaches to content, process, and product; and it is a blend of whole-class, group, and individual instruction.

The author states: "My goal here is to help teachers determine what differentiated instruction is, why it is appropriate for all learners, how to plan for it, how to manage it, how to help parents and students prepare for differentiated classrooms, and how to assess student progress." She describes actual classrooms that use strategies for managing differentiated classrooms and provides detailed how-to's for lesson planning. An appendix lists strategies, including pretesting for competence ("compacting"), independent projects, interest centers, and tiered assignments.
