In an increasingly interconnected global business environment, it is crucial that marketers recognise how a better understanding of cultural differences can help improve performance.

*Marketing Across Cultures* examines how multinational companies can appreciate and adapt to international diversity. By comparing national marketing systems with local commercial customs, Usunier and Lee use a cross-cultural approach that provides essential information on how marketing strategies can be implemented in different national contexts.

Full of up-to-date examples, numerous illustrations and using clear language, this text will guide students through key cultural marketing issues.
