Designing and Conducting Ethnographic Research (Ethnographer's Toolkit)

Margaret D. LeCompte, Jean J. Schensul

Designing and Conducting Ethnographic Research (Ethnographer's Toolkit) Margaret D. LeCompte, Jean J. Schensul

The Ethnographer's Toolkit series begins with this overview volume, which defines the qualitative research enterprise, links research strategies to theoretical paradigms, and outlines the ways in which an ethnographic study can be designed. Using practical, straightforward language, the authors of this volume introduce readers to the research process, identifying issues, choices, and techniques covered in greater depth in other kit volumes, including chapters on the personal qualities of a good researcher and on research ethics. As a guide to the contents of the Toolkit series, or as a stand-alone introduction to the qualitative enterprise, this volume will be extremely valuable to novice researchers.
