How Weaning Happens Diane Bengson

* This is a new copy. When counseling breastfeeding families who ask How Weaning Happens, author Diane Bengson says, "Gradually, with love." She answers the many questions she's seen hundreds of families bring up through her years as a La Leche League Leader and wrapped her own as well as their personal experiences into her book How Weaning Happens. She covers social and cultural differences among the breastfeeding families, pressures to wean, natural weaning and various other reasons to wean. She also writes about the physical and emotional changes of mother and child in a nursing relationship. Weaning is the first complete book on the topic from LLLI, though the organization has a number of shorter publications on the subject.
