As a student, I exactly feel bored with reading. If their teacher questioned them to go to the library as well as to make a summary for some book, they complained. Just tiny students that have reading's heart and soul or real their leisure activity. They just do what the instructor wants, like asked to the library. They go to the library but nothing reading significantly. Any student feels that reading through is not important, boring in addition to can't see colorful pictures on there. Yeah, it is to be complicated. A book is very important for you personally. As we know that on this time, many ways to get whatever we would like. Likewise, word says, many ways to reach Chinese's country. So, this *The Pursuit of Happiness* can make you experience more interested to read.
