College Algebra with Modeling and Visualization, Books a la Carte Edition plus NEW MyMathLab with Pearson eText -- Access Card Package (5th Edition)

Gary K. Rockswold

College Algebra with Modeling and Visualization, Books a la Carte Edition plus NEW MyMathLab with Pearson eText -- Access Card Package (5th Edition) Gary K. Rockswold

Books a la Carte are unbound, three-hole-punch versions of the textbook. This lower cost option is easy to transport and comes with same access code or media that would be packaged with the bound book.

By connecting applications, modeling, and visualization, Gary Rockswold motivates students to learn mathematics in the context of their experiences. In order to both learn and retain the material, students must see a connection between the concepts and their real lives. In this new edition, connections are taken to a new level with “See the Concept” features, where students make important connections through detailed visualizations that deepen understanding.

Rockswold is also known for presenting the concept of a function as a unifying theme, with an emphasis on the rule of four (verbal, graphical, numerical, and symbolic representations). A flexible approach allows instructors to strike their own balance of skills, rule of four, applications, modeling, and technology.

This Package Contains:

College Algebra with Modeling and Visualization, Fifth Edition, (a la Carte edition) with MyMathLab/MyStatLab Student Access Kit
