The Bhagavad Gita's philosophical and political significance remains forever contemporary. In this volume a group of leading historians reflect on the significance of the Bhagavad Gita for political and ethical thinking in modern India and beyond. These essays contribute new perspectives to historical, contemporary and global political ideas. Violence and nonviolence, war, sacrifice, justice, fraternity and political community were constitutive of India's political modernity, and it was to these questions that Indian public figures turned their attention in the nineteenth and twentieth centuries. Oriented towards the future, these commentaries and interpretations of a text that locates war as the central problem of human life have detached the Gita from antiquity and made it foundational for India's modernity. The book would be of interest to academic researchers as well as general readers interested in South Asian history, Indian philosophy and religion.
