## **HIV/AIDS, Illness, and African Well-Being (Rochester Studies in African History and the Diaspora)**

HIV/AIDS, Illness and African Well-Being highlights the specific health problems facing Africa today, most particularly the HIV/AIDS pandemic. Taking a multi-disciplinary approach, the book presents not only various health crises, but also the larger historical and contemporary contexts within which they must be understood and managed. Chapters offering analysis of specific illness case studies, and the effects of globalization and underdevelopment on health, provide an overarching context in which HIV/AIDS and other health-related concerns can be understood. The contributions on the HIV/AIDS pandemic grapple with the complications of national and international policies, the sociological effects of the pandemic, and policy options for the future. HIV/AIDS, Illness and African Well-Being thus provides a comprehensive view of health issues currently plaguing the continent and the many different ways that scholars are interpreting the health outlook in Africa. Contributors: Obijiofor Aginam, Yacouba Banhoro, Richard Beilock, Charity Chenga, Mandi Chikombero, Kaley Creswell, Freek Cronjé, Frank N. F. Dadzie, Gabriel B.
