Jewish Domination of Weimar Germany was the National Socialist government's first English-language attempt to explain the rationale behind their legislative moves to restrict Jewish influence in Germany after 1933.

Using official pre-Nazi-era demographics, this work showed that Jews were massively over-represented in all fields of German social and economic life—except that of farming and creative work.

It lists the ownership of mass media in Weimar Germany, the astonishing financial scandals, Communism and political subversion, degenerate theater, sexual psychology, Communist indoctrination in educational institutions and the media—all of which was predominantly Jewish in origin.

This new edition contains the entire original text and illustrations, and benefits from a series of appendixes which reveal:

- The measures taken by the Nazi state against Jews;
- Details of the Havaara transfer Agreement whereby the Nazi government and the World Zionist movement worked together to help create the state of Israel;
- The World Jewish declaration of war against Germany in 1933; and
- A series of eye-opening parallels between Weimar Germany and the present-day United States of America, showing exactly the same trends of Jewish domination of educational institutions, the mass media, and financial scandals—proof that history does repeat itself.
