A Social and Cultural History of Early Modern France

William Beik

A Social and Cultural History of Early Modern France William Beik

A magisterial history of French society between the end of the middle ages and the Revolution by one of the world's leading authorities on early modern France. Using colorful examples and incorporating the latest scholarship, William Beik conveys the distinctiveness of early modern society and identifies the cultural practices that defined the lives of people at all levels of society. Painting a vivid picture of the realities of everyday life, he reveals how society functioned and how the different classes interacted. In addition to chapters on nobles, peasants, city people, and the court, the book sheds new light on the Catholic church, the army, popular protest, the culture of violence, gendered relations, and sociability. This is a major new work that restores the ancien régime as a key epoch in its own right and not simply as the prelude to the coming Revolution.
