When a vampire's abilities and defects never fully develop, taking on the head of England's biggest vampire sect could be a bad idea.

Ever since he was turned, John Grissom, bacteriologist, has worked to find a cure for the disease. A powerful peer of the realm approaches him about research into the immunological properties of vampire blood, but Grissom discovers a far more gruesome scheme at play. He, his newly acquired assistant Henrietta, and the Prussian Van Helsing, a veteran vampire hunter in the employ of the Foreign Service, must seek out the elusive vampire lord before he succeeds in dramatically influencing the outcome of the war.
