The latest developments in this groundbreaking therapy approach!

More Than Miracles: The State of the Art of Solution-Focused Brief Therapy is a ground breaking, intellectually provocative book, revealing new advances in the widely used, evidence based Solution-focused Brief Therapy (SFBT) approach. The final work of world renowned family therapists and original developers of SFBT, the late Steve de Shazer and Insoo Kim Berg (who passed away shortly before the book's release) this definitive resource provides the most up-to-date information available on this eminently practical, internationally acclaimed approach. New revelations about the impact of language in therapeutic change are presented precisely and clearly, illustrated with real life case examples that give readers a "hands-on" view of the newest technical refinements in the SF approach. Challenging questions about the applications of SFBT to complex problems in "difficult" settings are given thoughtful, detailed answers. The book's unique design allows the reader to "listen in" on the lively discussions that took place as the authors watched therapy sessions.

The solution-focused brief therapy approach is based upon researchers observing thousands of hours of psychotherapy sessions and studying which questions and responses were most effective in helping people develop solutions to their problems. More Than Miracles: The State of the Art of Solution-Focused Brief Therapy is the most up-to-date, comprehensive review of this approach. This book discusses the latest developments in the fields of family therapy, brief therapy, and psychotherapy training and practice. A succinct overview orients the reader to the current state of SFBT, and provides three real life case transcripts that vividly illustrate the practical applications of SFBT techniques.
